

OXYGEN PET THERAPY

"Empowering Recovery, One Breath at a Time"

"Veterinary Oxygen Therapy. Simplified."

Engineered for precision and peace of mind, OXYPET delivers up to 10L/min of blended oxygen flow—quietly and efficiently. Its advanced sensor system continuously monitors oxygen levels inside the chamber, ensuring optimal conditions for your pet's therapy. With 24/7 automated control, this oxygen concentrator maintains the perfect air flow balance, allowing you to focus on care, not calibration.

Model OXY-Pro Series

-  Ultra-Quiet Medical-Grade Oxygen Concentrator
-  Real-time Oxygen Display & Monitor
-  Auto control of 30%, 40% & 50% Oxygen Purity
-  Low Oxygen Sensor Alarm
-  Chamber with Automatic CO2 Ventilation
-  No Ventury Valves Needed
-  Suitable for Various Size Chambers

OxyPet System

Models	OXY-Pro D2	OXY-Pro A1
Power Supply	115V / 60Hz	230V / 50Hz
Power Consumption	< 340W	< 220 W
Output Pressure	40 ~ 160 Kpa (5.8 ~ 23.2 psi)	
Maximum Oxygen Purity	93% ± 3% @ 5 L/min	
Maximum Blended Oxygen Flow	10 L/min	
Adjustable Oxygen Purity	30%, 40% and 50%	
Built-in Failure Alarm	Low O2 Concentration; Power Failure	
Sound Level	< 50dB (A)	
Dimensions	36x29x58 cm (14.17x11.42x22.83 in)	
Weight	15.2 Kg (33.51 lb)	12 Kg (26.46 lb)

OxyChamber

Model	OXY-CMB M02
Dimensions	26"L x 17.75"W x 17.75"H (66x45x45cm)
Materials	Polyvinyl Chloride (PVC) & Powder Coated Frame
Chamber Weight	8 lbs (3.6 kg)
Pet Weight	up to 30 lbs (14 Kgs)
